: in early 2020 we were participated in professional competition held by Indonesian Institute of Architect and Central Java Government to design Central Java's Great Mosque Masterplan. we didnt win the competition but the result was somehow represents our personal (or at least my personal) satisfaction.

an islamic complex with various public cultural typologies such as library, hotel, event space that can be accessed by the public inclusively.

the following diagrams on the next pages are our submission panels embeded on this portfolio.
