section

the design consist of 3 dedicated spaces which has specific intention: green room for communal, orange room for individual, and main area for the blended one.

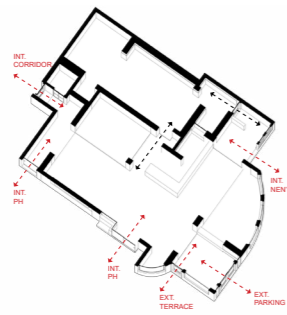

the highlight of this mini disco is the holy mimbar or dj set that located on the main area. orange room has their own dj set with distinct mood from the main area.

axonometry

the existing building is connected with several store that also access this building itself. circulation is one of our concern.

there are several access that we blocked and opened to maintain the circulation and zoning of this building.

we do less in demolishing of this building and reuse the previously program to repress the budget and minimize the intervention .
